

# Benefits Solutions Built on Trust

For more than 20 years, employers have trusted Selerix to deliver the service, technology, and benefits expertise required to implement and administer even the most complex benefits plans. In that time, we've learned that each employer is unique, so our solutions are designed with the flexibility to meet each employer's needs and allow them to operate at maximum efficiency.

With a comprehensive platform featuring benefits administration, ACA management, and workforce communications, Selerix is more than technology and more than a consultancy. We're a full-service benefits partner with a mission of delivering benefits solutions that simplify and empower.

## A trusted partner for every step of the journey

Our experts work beside client partners on every aspect of our solution — from plan design through open enrollment, ACA compliance, workforce communication, and beyond. We are committed to simplifying the complexity of employee benefits.

**“The Selerix system is great, but what makes it a million times better is the fact that the team is very responsive.”**

## Solutions delivered by experts who understand your unique needs

- Development of a solution that fits the benefits requirements of your organization
- Dedicated Client Advocates who not only take on the burden of the implementation process but provide ongoing support to your team throughout the entire benefits journey
- Experienced, expert benefits and software support that goes beyond troubleshooting
- We anticipate and tackle your toughest questions and thorniest challenges

## Solutions delivered by experts who understand your unique needs

- Development of a solution that fits the benefits requirements of your organization
- Dedicated Client Advocates who not only take on the burden of the implementation process but provide ongoing support to your team throughout the entire benefits journey
- Experienced, expert benefits and software support that goes beyond troubleshooting; we anticipate and tackle your toughest questions and thorniest challenges

## Proven, all-in-one benefits administration solutions

- Powerful, flexible ben admin system that matches each employer's unique benefits offering, no matter how complex
- Industry-leading product library with plug-and-play ready, pre-built core and voluntary products
- Simplified and streamlined ACA compliance, management, reporting, and filing
- Highly targeted communication tools (email, text, app) to streamline benefits education and two-way workforce communication, including quizzes, surveys, and results tracking

## Superior flexibility and integrations that simplify and empower

- Automated administrative tasks with seamless connections to a broad range of insurers, payroll, and third-party vendors through API integrations
- Integrated billing reconciliation, decision support, HSA/FSA, EOI, COBRA, and more — across carriers
- Integrations with over 100 carriers
