

One Partner. Every ACA Need Covered.

**ACA compliance is complex,
high-stakes, and a lot of work**

ACA work rarely follows a straight line. Requirements evolve and filing decisions often have consequences long after the work is “done.” Timing is rarely ideal. And mistakes don’t show up immediately. They can surface months or years later as penalties, audits, or IRS notices.

Selerix has built an ACA ecosystem that can support any employer

Proven Compliance Expertise

**Choosing an ACA partner starts with
knowing who’s behind the work.**

- Trusted by 1 in 4 employers nationwide
- 97% client retention rate
- \$650 million in mitigated penalties
- 19 million employees tracked
- 7.8 million 1095 forms filed annually
- One ACA provider. Zero outsourcing.

The Realities of ACA Compliance

Employers face the same compliance challenges year after year: evolving legislation, complex reporting requirements, and fragmented data management. Without specialized expertise, missteps can quickly turn into financial and reputational risk.

Compliance Challenges

OPERATIONAL DRAG:

ACA work often becomes a seasonal fire drill, pulling HR and brokers away from strategic priorities and increasing stress and rework.

SILENT LIABILITY:

Penalties and IRS notices arrive long after filing season ends — often when context has been lost and vendors have moved on.

LIMITED FLEXIBILITY:

Many employers find themselves midstream, between vendors, or facing non-standard ACA scenarios where most solutions simply don’t fit.

Selerix was designed to meet ACA work where it actually is: messy, ongoing, and deeply consequential.

Get In Touch

Solutions For Any Compliance Need

Selerix offers a full spectrum of ACA solutions, delivered under one roof, with consistent expertise and accountability. These options allow employers to engage at the right level and shift as needs change, without starting over.

INTEGRATED ACA

ACA compliance embedded within the broader Selerix benefits administration experience.

MODULAR ACA

Standalone ACA services for employers who need flexibility without re-platforming.

- **TOTAL ACA**

Full-service ACA compliance management with maximum support and minimal internal lift.

- **FLEX ACA**

Guided, self-service model with built-in compliance guardrails for equipped teams that want control without exposure.

- **ACA EFILE & DELIVERY**

Execution-focused filing and distribution for employers with established 1095 codes.

- **COMPLIANCE AUDIT SERVICES**

Proactive ACA reviews that identify risks, gaps, and filing issues, available as a standalone service or layered onto any ACA tier.

How Selerix ACA Is Different:

- **End-to-end ACA under one roof**

All ACA solutions — integrated and modular — are built, delivered, and supported by Selerix. No outsourcing. No third-party handoffs.

- **Consistent compliance foundation**

Every ACA option runs on the same compliance logic and regulatory updates. Differences reflect degree of hands-on support — not quality.

- **Solutions designed for real-world ACA scenarios**

Mid-year transitions, imperfect data, multiple EINs, acquisitions, and timing gaps are treated as normal — not exceptions.

- **Flexible entry points**

Employers can engage through audits, filing, or full service without committing to a full platform change.

BUILT TO SUPPORT ACA — WHEREVER YOU ARE

ACA deadlines may be predictable, but the work around them rarely is. Selerix treats ACA as an ongoing compliance discipline — not a seasonal event — so employers aren't left managing risk after the calendar moves on.

Talk to a Selerix expert to find the right ACA path for your organization.
