

HR Assist

**SMART, SIMPLE HELP.
RIGHT WHEN YOU NEED IT**

Getting up to speed on a benefits platform takes time, and too often, it's seasoned admins answering the same questions again and again. HR Assist changes that. Built directly into BenSelect, this AI-powered assistant provides 24/7 conversational guidance for everyday admin tasks. Ask a question in plain language. Get clear, consistent answers. No waiting. No digging through documentation. No guesswork.

Ready to put AI to work inside BenSelect?

AI Help for the Questions You Have Every Day

Every benefits team has its go-to experts that everyone turns to with “how do I...” questions. HR Assist helps spread that knowledge by making real-time guidance available to everyone, right inside BenSelect. New users get up to speed faster. Experienced admins spend less time answering repeat questions. And your whole team gets consistent, trusted answers, anytime they need them.

Key Features Include

- Real-Time Answers**
 Get instant guidance on everyday admin tasks — from navigation to reporting to enrollment overrides.
- Plain-Language Search**
 Ask questions naturally: “How do I process a life event?” or “How do I override a missed enrollment?”
- Step-by-Step Guidance**
 Follow clear, trusted instructions — right inside BenSelect.
- Trusted, Secure Source**
 All answers come from Selerix’s user guides & training materials, constantly updated by a dedicated team.
- Available 24/7**
 Your admin team can ask questions and get answers anytime — during open enrollment or quiet hours.
